

## MAINTENANCE TIPS FOR QS PRO RAILING SYSTEM

QS Pro Railing System is the most maintenance-free railing product on the market today. It may become dirty due to atmospheric conditions. To keep it clean simply spray it down with an ordinary garden hose and mild soap. If this method does not give you satisfactory results follow these easy instructions.

A. Wash using a soft cloth or ordinary long-handled bristle brush.  
B. For difficult to remove dirt stains use the readily available household cleaners such as:

1. Fantastic
2. Murphy's oil soap
3. Lestoil
4. Lysol
5. Windex
6. Vinegar and water

In some cases you may wish to use mildly abrasive cleaners or a paste-like scrubbing solution. Use of abrasive materials could have a negative effect on the surface of the railing/railing accessories. **DO NOT USE** cleaners containing aggressive organic solvents because they could affect the surface appearance of the vinyl. Examples of such cleaners are: chlorine bleach, liquid grease remover, strong soaps, and detergents containing organic solvents, nail polish remover, and furniture polish/cleaners.
